

CENTRAL ELECTRIC POWER COOPERATIVE, INC, (CENTRAL)
EXCESS FIBER
PRELIMINARY INFORMATION REQUEST

Purpose:

The Excess Fiber Preliminary Information Request provides developers with a standardized and efficient way to determine the availability and certain technical characteristics of Central-owned excess fiber.

Process:

1. Please complete the requested information below and submit to Central.
2. Provide the \$500.00 fee as instructed in the attached Central wiring instructions.
3. You can expect to receive your Preliminary Information Report within 15 business days of Central receiving this Preliminary Information Request and corresponding fee.
4. The Preliminary Information Report will provide the following information:
 - a. Excess fiber availability
 - b. Number of diverse routes and total length of each route
 - c. Type of fiber (OPGW, Overhead ADSS, Underground ADSS, etc.)
 - d. Existing splice locations in identified routes
 - e. Generic representation of point of interconnection (POI) and typical ownership demarcation arrangement

Application Information Needed by Central:

1) Developer Contact Information:

Contact Name: _____

Company: _____

Title: _____

Telephone: (____) ____ - _____
